Wei Dewdney

dewdney.a@northeastern.edu | 914-207-5624 | Boston, MA | LinkedIn | GitHub

Available January – June 2027

EDUCATION

Northeastern University | Boston, MA **Expected Graduation: May 2029**

Candidate for Bachelor of Science in Computer Science and Philosophy, Minor in Law and Public Policy

Relevant Coursework: Discrete Structures | Program Design and Implementation 1 and 2 | Logic and Computation | Game Programming 1 | Algorithms and Data

Honors and Achievements: GPA: 3.7/4.0 | Placed 4th out of 18 international teams in UC Berkeley Autonomous Driving Racing Competition utilizing Python and machine learning fundamentals FY22-FY23

TECHNICAL SKILLS

Languages: Python | Java | C# | R | OCaml
Tool/Systems: VSCode | Git | Unity Engine
Frameworks/Libraries: Pandas | Numpy | Pygame | MatPlotLib | JavaFX

PROJECTS

Get Off My Lawn – Full-Stack Co-Developer **April – June 2026**

- Conceptualized, designed, and scripted an FPS game in a team of 3 using Unity Engine and C#
- Taught team members how to use Unity Version Control and reviewed all pull requests
- Studied codebase to become familiar with team member's work which helped with debugging

Welchia – Game Programmer and Developer **May – June 2025**

- Co-conceptualized and programmed a 2D RPG using only Python and Pygame in 4 weeks
- Collaborated with a digital artist to create animated sprites and game maps that fit the game concept
- Wrote regular reports to supervisors and delivered a final presentation after the 4-week period

Columbia Data Science Research Project – Researcher and Data Analyst **June – August 2023**

- Created multiple predictive models using R and compared accuracies to find correlation of political opinions
- Utilized gradient boosting machine models to analyze the American National Election Studies dataset
- Published research report on factors related to abortion opinions, demonstrating results using data visualization

EXPERIENCE

The Coder School | **Scarsdale, NY** **August 2024 – September 2025**

Code Coach

- Created lesson plans and used them to teach children ages 6-17 about coding in 3 different languages
- Simultaneously lead multiple 1-on-1 tutoring sessions in Python, Java, and Scratch
- Facilitated and graded quizzes, tests, and homework assignments to strengthen students' technical skills
- Led 30-minute trial sessions for prospective students with a 100% retention rate

ACTIVITIES & INTERESTS

- Northeastern University Tabletop Roleplaying Society – Game Master
- Silver Masque Theatre Troupe – Director
- Cheese Club – Member
- Languages – English: Native | Mandarin Chinese: Proficient | Spanish: Intermediate
